Fleet Solutions: DC Fast Charging

Distributed Architecture for Depot Installations

Trusted Automotive Partner

- 130+ years as a major automotive OEM supplier
- Ensured program support (maintenance, hardware, software updates, etc.)

Proven Fleet Charging Solutions

- 1,500 systems deployed in North America
- White label support to promote your brand

V2G-Ready & UL Certified for Bidirectional Charging

- Generate revenue opportunities
- Support grid sustainability

Designed and Manufactured in the USA

1741SA
Industry First /
Only High Power
Bidirectional DCFC

Twin Rivers Bus Depot Ribbon Cutting - CA

*Future-Proof Solutions
V2G and Sequential Charging*

Sequential Charging

Sequential Charging

- Enables charging vehicles one a time
- Advances charge to next vehicle after 1 hr of charge or 90% SoC has been achieved
- Target application – fleets such as School bus, Vocational trucks for those with defined duty cycles and depot times
- Charges EV battery to 90% then sequentially charges next EV in line

Climatetech Innovation & Investment

We help new climate-focused businesses grow faster by backing a vibrant community of researchers, startups, and established industry players - creating an ecosystem where they connect and thrive.

Accelerating Decarbonization

We contribute to meeting our state's ambitious climate goals by tackling barriers to widespread use of clean energy and climate technology in buildings, transportation, and the grid.

Large Scale Deployment: Offshore Wind

We're building a cutting-edge offshore wind industry, marshaling world-class ports while addressing supply chain and workforce development challenges.

Clean Energy & Climate Workforce Development

We're growing a diverse and talented clean energy workforce by supporting a dynamic network of community-based organizations, labor, training providers, schools and employers committed to a sustainable future for all.

Electric Vehicle Services

Maverick Electric Vehicle Services is the expert in reliable, minimally disruptive civil and electrical distribution, make-ready construction, and utility systems.
